## SUMMARY

*Commissioning services for a performance contract that will start with the project audit phase and continue through monitoring and verification.*

*Solar Energy Massachusetts  
Energy Conservation Massachusetts  
Energy Consulting Massachusetts  
Energy Efficiency Massachusetts*

**Size:** 375 Kw

**Overall value:** \$2.5 million

## SERVICES

- Alternative energy services
- Energy analysis
- Energy financial analysis
- Energy reduction
- Energy conservation
- Third party ESCO consultant commissioning

## MEASURES

- Solar PV

# Town of Leicester Police Station Solar Project

## UNIQUE VALUE TO CUSTOMER

ADI Energy was hired to develop the RFP, select the energy installation contractor and negotiate the PPA for a \$2.5 million solar PV project. ADI negotiated a PPA rate for the Town as well as completed the commissioning of the solar system. ADI Energy reviewed design intent and basis of design for the Town of Leicester. The Town of Leicester requested ADI Energy to assist in commissioning which included pre-functional and functional testing. ADI also monitored the PV output to verify it is performing to specification.
