- Commissioning
- Preparing/analyzing energy savings M&V reports
- Energy audit development and analysis
- EMS trending
- Energy modeling
- Energy design build services
- Energy savings HVAC
- Energy financial analysis
- Energy performance contracting

MEASURES

- Lighting design
- Motors
- Transformers
- Steam traps
- Energy management system (2000+ points)
- Boilers
- Water conservation

UNIQUE VALUE TO CUSTOMER

ADI Energy evaluated all of the energy usage in the Providence Public Schools Department's buildings and determined that the Providence Public Schools Department could save an additional \$685,000 in annual energy expenditures. Utility benchmarking was completed for all Providence Public Schools Department buildings and energy management strategies were deployed as part of this contract. ADI Energy developed an Energy Dashboard to pinpoint waste throughout the Providence Public Schools District.
